

LiFE Oil technology for better LiFE

This oil is a unique organic antioxidant and one of the most powerful organic immunostimulant.

Old technological procedures are used for oil extraction. Cold pressing method is used during the extraction process by wooden presses and excludes any contact with metal. The crop collection and the oil extraction are performed in the ecologically clean area in north Canadian cedar woods in application with a unique molecular resonance extraction technology from STORM's Labs. allow the perfect and ecological clean new product LIFE.oil with follow unique properties.

The oil quality is certified both by the STORM's Research Labs and one of the Canadian licensed lab specialists.

Compounds.

LiFE Oil products is a concentration of Vitamin E (up to 54,8 mg) and Vitamin F and contains essential fatty acids, including saturated palmitic acid (up to 4,1% to the total amount of fatty acids), stearic acid (up to 35,8%) gadoleic acid (up to 27, 75%), which are as active as Vitamin F.

Pharmacological Effect. Stimulates bio-synthesis of elements in lipid metabolism, in regulating the blood pressure, liver blood circulation and reducing coagulation blood characteristics. Participates in oxidizing and rehabilitation processes and improves carbo-hydrate metabolism (i.e. in diabetic patients). Regains vitality, reduces symptoms of chronic fatigue and enhances mental and physical capabilities.

LiFE Oil products is recommended for patients for preventive or therapeutic purposes in the following cases.

- Skin disorders, such as **dermatitis, dermatous skin** of nervous and other origin, **psoriasis, deteriorating wounds** and injuries.
- Atherosclerosis** (used as a restorative remedy and as a preventive medicine to balance **cholesterol level**), **high blood pressure, blood diseases**, including the prevention of "clot" formation in blood, as well as in **myocardial dystrophy**.
- Neuralgia, **neuritis, back pain**, nervous disorders.
- Laryngitis, tracheitis, TB**, acute respiratory diseases.

- Eye disorders (sight reduction, conjunctivitis, itchy eyes, light phobia).
- Liver diseases (**Hepatitis, Cirrhosis**)
- Kidney diseases (pathology that causes high blood pressure).

- Lipo-dystrophies, dysfunctions of endocrine glands, asthenia.

- Intestinal diseases (functional failures, enteritis, colitis, gastritis (low acidity level), gastric and intestine duodenum ulcer, high acidity level, eructation, heartburn, other digestive disorders.

- Different allergies.
- Infectious diseases.
- Skin disorders—for cosmetic use in preventing dry or broken skin, wrinkles.

- Hair and nail problems (to prevent brittle nails and hair)
- Environmental illnesses (reduction of energy level and excessive psychological and emotional stresses).

TONSILLITIS, ACUTE RESPIRATORY DISEASES, FLU :

Put from 5 to 6 drops of LiFE OiL products to mucous membrane with the interval of 5 to 6 hours. **As a preventive measure during flu season** put from 3 to 5 drops 2 – 4 times daily.

If the temperature raises 38,5 grad C it is recommended to spread and rub the oil on the chest, back, legs, hands and arms, paying a special attention to lymphatic knots (under the arms and in the groin), as well as the biologically active spots on the upper area of the nose and under the nose). This procedure should be repeated in every 5 to 6 hours 4 times daily.

LUNG AND RESPIRATORY DISEASES :

Patients suffering from chronic diseases are recommended to spread and rub the **LiFE OiL products** on the chest and back daily throughout the periods of the aggravated conditions of the diseases. The patients are suggested the internal usage of the oil twice a day. A tea spoon of oil is held in the mouth, before swallowing the oil a patient is required to inhale the air that penetrates into the lung together with the aroma of the oil.

DENTAL DISEASES:

Tooth pain – a few drops of **LiFE OiL products** to be put on a piece of a cloth and applied to the inflammation area. Hold the application for about 20–25 minutes, then move it to another inflammation area and hold it for 30 minutes. The similar procedure is to be repeated on the other side. In a few hours the same method should be used once again.

Stomatitis, para-dentosis of the I and II degree, para-dentitis, gingivitis – The following healing procedure is suggested. Wrap the forefinger of the right or left hand with a piece of cloth (2 or 3 layers), put 4 to 5 drops of the **LiFE OiL products** on the cloth, apply the finger to the upper gum and start massaging it; then add 2 to 3 drops of the oil, apply it to the lower gum and start massaging it. In the similar make a massage of the inner sides of the gum. In conclusion, rub all the teeth, using the same oiled cloth. It is recommended to repeat this procedure twice a day during the period of 5 to 6 months.

SKIN DISEASES (BURNS, INJURIES, INFECTIONS, INFLAMMATION, ETC.):

A bandage soaked in **LiFE OiL products** should be applied to the damaged area as soon as the first symptoms are shown. The bandages are required to be replaced on a regular basis.

PROSTATE AND ADENOMA:

Take a piece of cloth or a cotton wool and soak it in **LiFE.OiL products**, then get rid of the excessive oil and carefully and insert it into the rectum. Keep it until the next evacuation of the bowels. Additional healing effect can be reached by rubbing **LiFE.OiL products** into the perineum area. This effect would be enhanced in a combination with coniferous baths. The treatment period lasts for 40 to 50 days, and if necessary it may be repeated in 3 to 4 months. Micro-enemas of **LiFE OiL products** would also bring beneficial results.

HAEMORRHOIDS:

Tampons soaked in **LiFE OiL products** to be inserted into anus. Outer knots to be massaged by fingers soaked in **LiFE OiL products**. Micro-enemas of **LiFE OiL products** would also bring beneficial results.

THRUSH:

Tampons soaked in **LiFE OiL products** to be inserted into vagina and kept there for the whole day.

POLIARTHRITIS, OSTEOCHONDROSIS, BACK PAIN: Rub the impaired joints with the **LiFE OiL products**.

STOMACH AND ALIMENTARY CANAL DISEASES:

Such diseases as colitis, gastritis, hepatitis, cholecystitis, enteric-colitis, etc. are successfully treated if a patient will take half of tea spoon **LiFE OiL** products in the morning on an empty stomach 15 minutes before the meals. If the body does not reject the medicine, the dose is increased from one to two tea spoons, which are taken three times daily (at 7–9 am, 12–13 pm, 6–8 pm). The course of treatment is from 30 to 35 days. Upon the completion of the second (or the third) course of treatment, micro-flora of the intestine will be restored and there will no traces of bacteria. It is worth mentioning that the use of **LiFE OiL** products in these cases has a healing effect not only to the stomach and intestine, but it produces the beneficial results on liver, pancreas and kidney. Patients who suffer from high level of acidity will likely experience uneasy or uncomfortable feelings. The above healing process can be fully completed by the introduction of an additional course of treatment, by using micro-enemas with **LiFE OiL** products.

EYE DISEASES :

For treating or preventing cataract it is recommended to put one drop in each eye half an hour before getting up in the morning.

INFLAMMATION OF TRIFACIAL NERVE :

It has been proved that the successful results were obtained in 50–60% cases. Nevertheless, the course of treatment needs to be repeated. The **LiFE OiL** products is rubbed with the help of a finger that moves along the nerve 4 to 5 times daily. It is also advisable to cover all biologically active dots in this area during this procedure. If the inflammation has penetrated deep into the soft tissue, a compress with **LiFE OiL** products is required and should applied to the biologically active dots for 15 to 20 minutes. In addition to this treatment the **LiFE OiL** products must be taken internally. The treatment can be completed within 5 to 7 days up to 2–2, 5 months, depending on the individual specific results.

HEART DISEASES (STENOCARDIA, ARYTHMIA, TACHYCARDIA) :

When an attack starts a patient should put 10 to 15 drops of the **LiFE OiL** products on his/her palm and rub the oil in the heart area (below the nipple up to the left side line). As a preventive measure for maintaining the balance, the above procedure is recommended in a combination with taking the oil inside (twice daily, one tea spoon) for the period of one month.

BLOOD PRESSURE REGULATION :

Clinical and research findings proved that the usage of LiFE Oil products has significantly contributed to the balancing of blood pressure (the decrease of high blood pressure and the increase of low blood pressure). To start treatment a patient needs to take three drops of oil daily. Then gradually this amount is to be increased and adjusted depending on each specific case up to three times daily. At the age of 40 a patient requires to take a course of treatment during 30 days. For more mature patients this requirement should be extended to 45-50 days and repeated in 1-1, 5 months (each course of 2 to 3 weeks).

No side effects are discovered.

Natural, not refined 100% stone pine nut oil
This is an invaluable gift of Mother Nature to people !

It is really an accumulator of the ideally selected and balanced by Nature itself biologic active agents, which pine nut kernel content. The pine nut oil can be a substitute for any vegetable oil (i.e. sea buckhorn oil, bur oil, coconut oil, olive oil, almond oil etc.) Nothing can be a valuable substitute for pine nut oil!

The vitamins, which are in the content of oil, help to develop a human organism. **Vitamin A** is a vitamin, which helps at growth and development. Besides the prevailing amino acid in the residue of protein kernel is arginin (to 21 mg/100 g of protein), which is one of the irreplaceable acids in children's nourishment.

Pine nut oil is of value in modern medicine because it contains **vitamins A, B and D**, which normalize nervous system activity, help to develop human organism, make better **blood composition**, have a favorable effect upon dermal tissue. The following vitamins are of value: **B1** (thiamin), which controls nervous system activity, and **vitamin B6**.

As for **vitamin E** content in pine nut oil (in the average 55mg/100g) it is 5 times more as olive oil and 3 times more as coconut oil. If there is a human organism deficiency of **vitamin E** (tocopherol, which means in the translation from Greek "to breed"), so metabolism, disturbance of fat using process take place as well as predisposition to atherosclerosis increases, nursing mothers stop having milk, pregnant women can have premature birth or an ovular abortion.

But the main thing is that pine nut oil is a sort of concentrated product of **vitamin F** – it contains in the oil 3 times more than in the preparation "**Vitamin F**" on the basis of cod-liver oil, which one can buy in city drugstores. **Vitamin F** is irreplaceable fat acids as well as saturated fat. acids: palmitic acid (to 5% of the total fat acids number), stearic (to 3,2%), and extremely not saturated fat acids: oleic acid (to 35,8%), gadolvinic acid (to 1,04%), linoic (to 71,%) and linolenic (to 27,75%) acids.

As linoic and linolenic acids do not synthesize in human organism, so their such high concentration in pine nut oil determines its

special value. A deficiency of extremely not saturated fat acids can cause oncologis disease, atherosclerosis, infertility, fetus hypotrophy, immunity weakening and organism presentilation. Children are very sensible, if they are chort of these acids – babies can have dermatitis.

Cosmetic preparations and masks with pine nut oil due to its composition have a favorable effect upon skin while enriching it with natural vitamins, microelements, support natural acid-alkali balance making it elastic and velvety. It is perfect for massage!

The test results conducted in some institutes of the STORM's Labs of medicine sciences, clinics, research medicine centers certify high therapeutic efficiency of pine nut oil by treatment of tracheitis, laryngitis, cold, grippe; psoriasis, dermatitis, dermathosis, dithesis, hives, dermal deseases, bed sore; erosions; trophic sore; gastritis, bulbitis, chronical pancreatitis, stomach ulcer, duodendum and other gastroenteric tract diseases. **Pine nut oil** has a favor efficiency at different allergic disturbances, burns and frostbites; has a reinforcing effect, helps by eliminating of chronical fatigue syndrome. It is very useful to add some pine nut oil in food, especially for people who suffer from dermal diseases, alopecia, who have hair and nail brittleness, who work and live in climatically and ecologically not good conditions as well as who deal with heightened energy expenditure and have excessive psycho emotional loads, stresses.

The regular use of pine nut oil and pine nut (taking into consideration elements in their composition) is necessary for children's forming organism.

As pine nut oil is natural food product, so it has not any contraindications for use in food or for treatment.

Little sediment is allowed.

LIST OF SOME MAIN COMPONENTS IN PINE NUT COMPOSITION

Vitamin B1 (Tiamin) helps organism in optimal use of carbohydrates, which is a main energy source. Daily demand comes to 1,3 – 2,6 mg. The demand can increase by gastroenteric tract diseases, sharp and chronical infections, burn, and diabetes, at treatment with some antibiotics. Tiamin content in pine nut oil comes to 1,6 mg/100 g.

Vitamin B2 (Riboflavin) helps the organism to transfer proteins, fats and carbohydrates into energy. It is necessary to form and support organism tissues. Daily demand is 1,5 – 3,0 mg. The demand increases at **anacid gastritis**, chronic **enterocolitis**, **hepatitis**, **cirrhosis of the liver**, anemia, some eye and dermal diseases. Riboflavin content in pine nut oil comes to 1,7 mg/100g.

Vitamin B3 (PP) (Niacin) is important for fat synthesise, protein metabolism and food transferring into energy. Daily demand comes to 14 – 28 mg. The demand can increase by gastroenteric tract diseases, especially by diarrhea, diseases of lever, atherosclerosis, prolonged intake of anti-tuberculous preparations. Niacin content in pine nut oil comes to 1,7 mg/100 g.

Vitamin E (*Tokoferol*)*

has an effect upon sexual and endocrine glands (restores manual potency and recovers youth), stimulates muscle activity, takes part in protein and carbohydrates metabolism, helps by assimilation of fats, **vitamin A** and **D**. Daily demand is 12 – 15 mg. The demand can increase, if **vitamin E** assimilation is not possible by diseases of lever (**hepatitis**, **cirrhosis**), pancreas, intestine as well as by prolonged linetol intake, by **diseases of sexual system** and **nervous muscles system**, by **dermal diseases** and **atherosclerosis**.

100 g of the product contain:

copper* to 4mg
molybdenum to 0,2mg
magnesium to 552 mg
nickel to 0,08mg
manganese* to 6mg
sodium to 195mg
silicon to 3,2mg
iodine to 0,6mg

silver to 0,03 mg
cobalt to 0,05mg
potassium to 650mg
boron to 0,0003mg
phosphorus to 840mg
zinc* to 20mg
calcium to 10mg
ferrum to 19mg

*– belong to the group of antioxidants, which prevent from appearing of cholesteric patches.

As well as barium, titanium, tin, vanadium, aluminum, iodine.

Carbohydrates, among them: glucose, fructose, saccharine, sugar, starch, dextrin, pentosan, cellulose, ash.

Besides there are proteins in the composition, which belong to albumin, globulin, glutelin and prolamin.

Recommendations for use by burns, frostbites and dermal diseases...

One should paint with oil or lay "with oil impregnated dressings by treatment of chemical and thermic bum, frostbites as well as dermal diseases and erosions. The dressings are to replace in a day. One should intake and resolve in his mouths 1 teaspoon 3 times a day 30 minutes – 1 hour before meal.

Recommendation

for pine nut oil use as prophylaxis and for treatment of other diseases One should intake pine nut oil on an empty stomach, i.e. 30 minutes – 1 hour before meal 1\2 teaspoon to 1 dessert spoon. There is no strong dosage as pine nut oil is a natural food product for a man, so there are not any limitations. All depends upon age, state of disease neglect and taste.

The origin from the STORM's Research Labs guaranty the authenticity and effectivity of the product and the therapy.

Energy value 100g – 898 cKal.

Fats – 99,8g

Product # 2, based on LIFE.OIL technology

LIFE.OiL CAKE

It is a unique natural product superior to meat, fish and vegetables in food value. It is a naturally occurring polyvitaminic– polymineral complex, which doesn't have any analogues, and is useful to people weak after a disease, suffering from **anemia, osteochondrosis, inflammatory kidney diseases, tuberculosis**, and to children, especially in the period of rapid growth.

This product turns to be a perfect protein for sportsmen, including those going in for **bodybuilding**.

The product the LiFE.OiL cake we offer you is choice kernel of LiFE OiL ground using a special technology for a better assimilation by the body.

Our LiFE.OiL cake contains up to 10% of carbohydrates and 40% of healing oil.

It doesn't contain cholesterol, preservatives, dyes, aromatizers or chemical additives. The product has large amounts - up to 44%- of protein (12 times more than in chicken), what can compensate the «protein starvation». The vegetable protein of **LiFE OiL** is ideally balanced by the nature itself and is assimilated by the body up to 99%.

The **LiFE.OiL cake** presents great medical and prophylactic nutrition during different diseases. It **increases immunity and potency**. Improves blood composition. Guarantees the necessary daily rate of micro-elements, vitamins and amino acids.

100g of The **LiFE.OiL CAKE** contain:

<i>Minerals</i>	<i>content</i>	
Boron	15mg	=5n
Magnesium	670 mg	=1,7n
Silicon	2 mg	=1/10n
Phosphorus	1260 mg	=n
Potassium	1720 mg	=0,7n
Calcium	44 mg	=1/20n
Manganese	15,6 mg	=3n
Iron	9,2 mg	=0,5n
Cobalt	0,1 mg	=10n
Copper	2,6 mg	=n
Zinc	11,4	=0,9n
Iodine	0,45	=2n
<u>essential amino acids</u>		
Tryptophane		=5n
Valine		=3,5n
Methionine		=4n
Phenylalanine		=8n
Leucine		=1,4n
Isoleucine		=1,4n
Arginine		=11n
n is the daily rate of usage	for a person weighing 70 kg	

Besides, the LiFE.OiL cake contains vitamins of groups B, E, D, carotin (**provitamin A**), lecithin, extra-valuable **vitamin F** (polyunsaturated fatty acids), pantothenic and folic acids.

This product is recommended to use as dessert, and also as a tasty natural vitamin additive to various ready-to-eat meal, sauces, salads, ice-cream and beverages (tea, milk, yogurt, vegetable and fruit cocktails, yoghurts).

Add the LiFE.OiL cake to pastry and your thick pancakes, buns, biscuits or cake will become tastier and more useful.

Using one kilogram of the LiFE.OiL cake you can make sixteen liters of useful lean «LiFE.OiL milk», which is a dietetic product.

AT THE PRICE OF COW'S MILK !!!

For one helping take two teaspoons (full) of the **LiFE.OiL cake**, pour a glass of boiling water, add sugar or honey (to your taste), stir carefully and leave to brew. You can stew the product in the oven, a microwave oven or a thermos.

We are sure, this advice will make your nourishment more useful for health and tastier! *Bon appetite !*

Regular use of the **LiFE.OiL cake** (taking into consideration the elements it consists of) is especially recommended for children, for better formation of the growing organism. Being a natural food product the **LiFE.OiL cake** does not have any contraindications, no matter, for what kind of purpose it is used – as food or for prophylaxis, except personal intolerance to the product.

LIST OF SOME MAIN COMPONENTS OF THE LIFE OIL

Vitamin B1 (Thiamin). It helps the body to use carbohydrates – the main source of power – most optimally. Daily need is 1,3–2,6 mg. This needs increases highly during gastrointestinal tract diseases, acute and chronic infections burn disease, diabetes, during treatment using some kinds of antibiotics. The **LiFE.OiL products** contains 0,39 – 0,66 mg% of thiamin.

Vitamin B2 (Riboflavin). It helps the body to transform proteins, fats and carbohydrates into energy. It is necessary for formation and

maintenance of body's tissues. Daily need is 1,5–3,0 mg. This need increases during an-acid **gastritis, chronic enterocolitis, hepatitis, cirrhosis, anemias**, certain diseases of eyes and skin. LiFE.OiL products contains 0,14 – 0,17 mg% of **riboflavin**.

Vitamin B3 (PP) (Niacin). It is important for synthesis of fats, protein exchange and transformation of food into energy. Daily need is 14–28 mg. This need increases during gastrointestinal tract diseases, especially with **diarrheas**, during **liver diseases, atherosclerosis**, a long intake of **anti tuberculous** drugs. LiFE.OiL products contains 1,05 – 1,40 mg% of natural **niacin**.

Vitamin E (Tocopherol). It influences the function of **sex gland** and of other **endocrine glands (recovers potency of men, and returns youth)**, stimulates muscular activity, takes part in the exchange of proteins and carbohydrates, contributes to assimilation of fats, **vitamins A and vitamin D**. Daily need is 12–15 mg. This need increases during **liver diseases (hepatitis, cirrhosis)**, diseases of **pancreas, intestines**, and also during a long intake of linethol, **diseases of sexual and neuromuscular systems, skin and atherosclerosis**. LiFE.OiL products contains 9–10,12 mg% of tocopherol.

The LiFE.OIL products are base for your health & wellness.

All products have sanitary certificate and certificate of conformity.

Life.Oil Composition and Content

One one most significant component of the Life.Oil is the **triglyceride** composition of any pine nut oil showed the following composition's tble:

Fatty acid	Percentage
Linoleic acid	49.0% ± 2.3
Oleic acid	23.8% ± 2.1
Pinolenic acid	17.1% ± 2.0
Palmitic acid	6.3% ± 2.2
Stearic acid	2.5% ± 0.1
